

Dr. Lamoreaux's Psychological Evaluation Services

Type of Evaluation (All evaluations include a separate feedback session and written report including diagnostic impressions and recommendations)	Standard Fee* and Appt. length**
General Psychological Assessment¹ (Adult/Child/Teen): This comprehensive evaluation looks at various aspects of psychological and cognitive functioning using standardized methods. Includes full test of intellectual abilities/IQ, visual-spatial skills, reasoning, memory, processing speed, executive functioning, and full assessment of social/emotional behavior and personality.	\$1600 Appt: 3-4 hours
Cognitive Assessment Only (Adult/Child/Teen): This shorter evaluation looks at overall IQ and core intellectual abilities only. A more comprehensive set of tests can be used to supplement the standard IQ test, providing information about additional cognitive abilities (add \$300).	\$500 Appt: 1-3 hours
General Personality Assessment Only (Adult/Teen): This exploratory assessment of social, emotional, and behavioral functioning utilizes a lengthy questionnaire to assess for clinically significant difficulties across a wide range of issues. Helpful for guiding treatment planning between therapist and client.	\$500 Appt: 1-2 hours
Standard Learning Disability (Psychoeducational) Evaluation (Child/Teen): This evaluation looks at intellectual functioning (IQ), academic functioning, brief visual-motor assessment (fine motor), and a screening of emotional and behavioral issues.	\$1600 Appt: 3-4 hours
Learning Disability Evaluation + Diagnostic Evaluation (Child/Teen) This evaluation looks at intellectual functioning (IQ), academic functioning, and ADHD, ASD, mood, anxiety, and behavior, as well as daily living skills and related issues (as needed).	\$2000 Appt: 5-6 hours
Brief Evaluation for Diagnosis Only (Adult/Child/Teen): When specific diagnoses are suspected, this evaluation uses interview and psychometric instruments to determine if someone meets diagnostic criteria for ADHD, Autism Spectrum Disorder, depressive and mood disorders, and personality disorders. This evaluation does <u>not</u> include cognitive or academic testing.	\$1000 Appt: 2 hours (+ additional family member interviews as needed)

*Fee is for cash-pay clients and may change when customized, more complex questions, or for other purposes. Fee includes all aspects of assessment including report and discussion of results.

**Appt length estimate is just for the assessment appointment so you can plan how long it will take. Time varies per person.

¹ Cognitive testing is done virtually and requires that the client has access to a touch screen device of 10" or larger.
